Is there an out-of-pocket limit on my expenses?	Yes. In-Network \$6,600 individual/ \$13,200 family.	The out-of-pocket limit is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.
What is not included in the out-of-pocket limit?	Premiums, balance-billed charges, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .

See the chart starting on page 2 for how this plan pays different kinds of providers .
Do I need a referral to see a specialist?	Yes. Talk with your PCP to be sure you know how referrals work.	This plan will pay some or all of the costs to see a specialist for covered services but only if you have the plan's permission before you see the specialist .

- Co-payments are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- Co-insurance is *your* share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for an overnight hospital stay is \$1,000, your co-insurance payment of 20% would be \$200. This may change if you haven't met your deductible.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the allowed amount is \$1,000, you may have to pay the \$500 difference. (This is called balance billing.)
- This plan may encourage you to use In-network providers by charging you lower deductibles, co-payments and co-insurance amounts.

Does this Coverage Provide Minimum Essential Coverage?

The Affordable Care Act requires most people to have health care coverage that qualifies as "minimum essential coverage." **This plan or policy does provide minimum essential coverage.**

Does this Coverage Meet the Minimum Value Standard?

The Affordable Care Act establishes a minimum value standard of benefits of a health plan. The minimum value standard is 60% (actuarial value). **This health coverage meets the minimum value standard for the benefits it provides.**

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

Costs don't include premiums.

Sample care costs are based on national averages supplied by the U.S.

Department of Health and Human Services, and aren't specific to a

particular geographic area or health plan.

The patient's condition was not an excluded or preexisting condition.

All services and treatments started and ended in the same coverage period.

There are no other medical expenses for any member covered under this plan.

Out-of-pocket expenses are based only on treating the condition in the example.

The patient received all care from in-network providers. If the patient had received care from out-of-network providers, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage

Example helps you see how deductibles, co-payments, and co-insurance can add up. It

also helps you see what expenses might be left up to you to pay because the service or

treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

No. Treatments shown are just examples.

The care you would receive for this

condition could be different based on your doctor's advice, your age, how serious your

condition is, and many other factors.

Does the Coverage Example predict my future expenses?

No. Coverage Examples are not cost

estimators. You can't use the examples to estimate costs for an actual condition. They

are for comparative purposes only. Your own costs will be different depending on

the care you receive, the prices your providers charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

Yes. When you look at the Summary of

Benefits and Coverage for other plans, you'll find the same Coverage Examples.

When you compare plans, check the

"Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium

you pay. Generally, the lower your premium, the more you'll pay in out-of-

pocket costs, such as co-payments, deductibles, and co-insurance. You

should also consider contributions to accounts such as health savings accounts

(HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket

expenses.

Dear Employer Group:

As part of the Affordable Care Act (ACA), the Department of Health and Human Services (HHS) has established standard templates that health insurers must use to summarize their benefits. These documents will make it easier for consumers to understand their benefits and compare coverage options.

What this means to you

The enclosed summary of benefits and coverage (SBC)* must be supplied to all of your employees who are eligible for your group insurance (not just those currently enrolled in our plan). Before distributing it, please take the opportunity to review the benefits described to be sure this is the benefit package you have agreed to offer. We recommend that you send it to employees along with any other key details necessary for finalizing their health coverage decision (e.g., employee contribution levels and information on their application process).

Why this is important

According to ACA regulations, the SBC must be issued to all eligible employees within seven business days of the employer's written intent to purchase or renew health coverage. If the SBC is not provided by the plan or the group in a timely fashion, a fine of up to \$1,000 per employee may be levied against both the employer and CDPHP. The New York State Department of Financial Services (NYDFS) is also authorized to impose fines.

Your cooperation is appreciated

The notice may be relayed to employees electronically or as a hard copy. Thank you for your compliance with this federal requirement by supplying your employees with clear, reliable information about the benefits being offered to them by CDPHP. Please direct any questions to your broker or CDPHP sales representative.

*The SBC is not a contract or guarantee of coverage, and is designed to provide a simplified overview of benefits supplied by your plan. In all cases the contract is the governing document.
